

MARK ARROLLE MANZANILLA

Head of Plus | Software Engineering & Business Solutions Leader
Philippines | (+63) 91569-46464 | arrolle14@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Engineering leader with 6+ years of experience building scalable applications, automation platforms, and AI-powered business solutions. Currently Head of Plus at Wellevate, leading a business unit focused on solving complex operational problems through custom software, automation, and data-driven systems. Proven ability to translate business requirements into high-impact technical products with expertise in full-stack engineering, DevOps, and solution architecture.

PROFESSIONAL EXPERIENCE

Head of Plus

2026 – Present

Wellevate Inc., Quezon City

- Lead the Plus Business Unit delivering custom business applications, automation systems, and AI-powered solutions.
- Architect scalable platforms that streamline operations and eliminate manual workflows across the organization.
- Manage cross-functional development teams and oversee end-to-end solution delivery from design to deployment.
- Drive innovation by integrating LLMs, automation pipelines, and data-driven systems into core business processes.
- Built and deployed complex workflow automations using N8N and Make (formerly Integromat), connecting business tools and eliminating repetitive manual processes.

Senior Software Engineer

Aug 2024 – 2026

Wellevate Inc.

- Designed and built scalable applications with AI integrations and advanced automation capabilities.
- Implemented DevOps pipelines using Docker and CI/CD to improve deployment reliability and release velocity.
- Developed reporting and analytics platforms leveraging Power BI, SQL, and MongoDB.
- Created automated multi-step workflows with N8N and Make to integrate third-party APIs, streamline data flows, and reduce manual intervention across business operations.

Customer Success Engineer

Apr 2021 – Aug 2024

We Support Inc.

- Developed backend services and enterprise web applications using Node.js and MongoDB.
- Built reporting solutions and data extraction tools for large-scale enterprise datasets.

Application Developer

Jun 2019 – Oct 2020

Brother Philippines

- Developed desktop and web-based applications using C#, VB.NET, and MSSQL.
- Built stored procedures and database logic supporting enterprise-grade systems.

E D U C A T I O N

Bachelor's Degree
Lyceum of the Philippines – Laguna

2015 – 2019

- Best Thesis Awardee | Microsoft MTA Certified | Microsoft Imagine Cup Participant
